Dear Mr Dodger,

Thank you for your emails on 21/10/2026.

I have referred your emails to the relevant teams, who are currently addressing your existing complaint, and requested that they also consider and address your latest correspondence as part of their investigation and response.

We expect this current complaint to be finalised by 18/11/2026.

Kind Regards,

Bric Perez

CAUTION: This email originated from outside of the organisation. Do not click links or open attachments unless you recognise the sender and know the content is safe.

Il don't want you in my life. You're deliberately targeting and hurting me as part of a deliberate conspiracy which is placing my life at risk of suicide. I purchase not because I wanna die but because I wanna live when you're deceitful and malicious actions Targeted me I've written a report and I've added it in addition to that I went to the Public Guardian because I was being evicted from my house and I needed a Legal Aid instead of providing a Legal Aid you obstructed it and I was forced to live in my car on the road with little paid assassins chasing me and you were part of a coordinated campaign which ended in my assassination attempt in Port Macquarie which you refuse to acknowledge you cannot ethically humanly or morally claim you care when you remove money from my life I don't want you in my life anymore but I can't make a legal season Assist notice because I'm banned Legal Aid which provides you with immunity to target me at Will and maliciously as you want I've attached the document. I don't want you in my life. Please remove yourself from my care.

You need to remove yourself deliberately purposely from my existence in my life before the coordinated campaign to physically erase me from this existence actually comes to fruition because if it does, I tell you now you Philipe and everyone there will have blood on your hands. There is no escaping that you're harming me.

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person’s ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It

is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

Your email of 20 October 2026 at 7:29 pm was referred onto the guardianship team as it relates to your accommodation. If you have concerns for your safety, we strongly encourage you to contact NSW Police.
>
> NSWTG will respond to the concerns raised in your email that relate to your financial management and guardianship matters.
>
> As your email was addressed to a number of agencies and raised a range of matters, it was not always clear which concerns you were asking NSWTG to address. For any future complaints about NSWTG, please email complaints@tag.nsw.gov.au directly and include only those matters you are asking NSWTG to consider. This will help us identify and respond to your concerns more clearly.
>
> I am sorry to hear of your concerns regarding financial restrictions and access to funds, as well as matters relating to medical and psychiatric care.

The concerns relevant to NSWTG have been referred to the managers of the appropriate teams for review and response.

The general timeframe for a written response to complaints is 20 working days, and every effort will be made to provide you with a response within that timeframe.

If you have any questions, please do not hesitate to contact me via complaints@tag.nsw.gov.au.

Further information about our complaints process is also available on our website at NSW Trustee and Guardian complaints | NSW Government

What happens after I lodge my complaint?

Step 1

An automated reply will be sent to confirm receipt of your complaint.

Step 2

The Customer Resolutions Coordinator will acknowledge your complaint within 3 business days and will assign a staff member to review.

Step 3

A staff member will call you within 5 business days of your complaint being acknowledged.

If you do not receive contact within this period after the acknowledgement email, please notify the Customer Resolutions Coordinator by emailing complaints@tag.nsw.gov.au.

Step 4

We work on an outcome to your complaint. During this time, we may or may not need to contact you.

Step 5

You'll usually receive a written response within 20 business days of your complaint being acknowledged.

Kind Regards,

Bric Perez

FROM: Barran Dodger (Richard William McLean)

DATE: 20 October 2026

SUBJECT: URGENT FORMAL COMPLAINT — ALLEGED NEGLECT OF SUPPORT DUTIES, LOSS OF FINANCIAL ACCESS, MEDICAL VULNERABILITY, REPORTED COERCIVE CONTROL, FAILURE TO PROVIDE MEANINGFUL ASSISTANCE, AND REQUEST FOR IMMEDIATE INDEPENDENT REVIEW

1. PURPOSE AND URGENCY

I submit this formal complaint because my circumstances have become intolerable. I am asking each recipient to recognise the seriousness of my situation, investigate the matters within its jurisdiction, preserve relevant records, and take appropriate action without further unnecessary delay.

I am living with persistent distress, isolation, physical illness, financial insecurity and a lack of meaningful assistance. I report crying daily, experiencing pain and feeling trapped in accommodation from which I cannot practically leave because I have no car, no available money and inadequate practical assistance.

I dispute any characterisation of my circumstances that reduces these practical difficulties to a psychiatric explanation while leaving the underlying problems unaddressed. Whatever clinical opinions may exist, my lack of transport, restricted access to money, medical needs and need for effective disability support are matters capable of independent examination.

I am asking for practical intervention, not another cycle of referrals, dismissals, conflicting explanations or assessments that leave my circumstances unchanged.

2. COMPLAINT AGAINST ABLEPOINT AND ITS MANAGEMENT AND STAFF

I formally complain about the adequacy, continuity, responsiveness and accountability of the support I report receiving from AblePoint.

I request an independent examination of the conduct of the organisation, its management, its rostering and complaints processes, and every worker involved in my support.

My concerns include:

1. **Inadequate practical assistance.** I report that essential household tasks and daily support needs have not been met adequately. In particular, I describe an incident involving a support worker identified to me as John, who was expected to provide assistance but refused to wash my dishes, reportedly because they were too dirty. I request that this incident, the applicable support obligations and the relevant service records be examined.
2. **Failure to respond adequately to distress and vulnerability.** I report that I am frequently alone, crying and experiencing significant distress, without meaningful assistance that improves my circumstances.
3. **Continuity and quality of care.** I request a review of staffing arrangements, attendance records, support plans, missed or incomplete tasks, risk assessments, incident reports and the actual services delivered.
4. **Safety and incident management.** I request an audit of whether reported safety concerns and any relevant threats or serious incidents were documented, escalated and reported to the appropriate authorities where required.
5. **Accountability of management.** I request the full legal name of AblePoint's chief executive, the identity of the responsible provider entity, its relevant registration details, and the names and positions of the people responsible for decisions affecting my care.

I have identified Rachael as the chief executive. I request confirmation of her full professional identity and role through the appropriate corporate and provider records. I ask that this be verified rather than assuming, without evidence, that any identification issue constitutes a criminal offence.

I am particularly concerned that AblePoint may continue receiving payments for services while I remain in circumstances in which my practical needs are not being adequately met. I request an audit of the services claimed, the services actually delivered, the applicable service agreements and the records supporting those claims.

I request that AblePoint provide a written response addressing each concern individually and identifying the corrective action taken or proposed.

3. COMPLAINT TO THE NSW PUBLIC GUARDIAN — ACCESS TO MY MONEY AND PERSONAL AUTONOMY

I formally complain about the restrictions affecting my access to my Commonwealth Bank accounts and the resulting impact on my independence, welfare and ability to obtain essential services.

I understand that my access to Commonwealth Bank internet and mobile banking was blocked in connection with arrangements involving the Public Guardian. I have previously identified Philip Glass as a person involved in communications about my financial access. I request verification of the precise decisions, authorities and individuals involved.

I report that I have no practical access to sufficient funds to meet my immediate needs, including transport, medical appointments and other necessities.

Restricting access to money can have consequences extending well beyond financial administration. Without a workable way to access funds, I can lose the practical ability to obtain transport, arrange medical care, purchase necessities and exercise personal autonomy.

I therefore request:

1. Written identification of the legal instrument, order, appointment or other authority relied upon to restrict my banking access.
2. A copy of the relevant decision and an explanation of its scope, duration and review arrangements, subject to any lawful limitations.
3. An itemised account of transactions, withdrawals, payments, fees and transfers made on my behalf, together with supporting records and the identity of the decision-maker for each disputed transaction.
4. An explanation of any proposed or completed further withdrawals from my funds.
5. An urgent assessment of my immediate living expenses and access to money for food, transport, medical care and personal necessities.
6. Consideration of a lawful, practical arrangement that gives me appropriate access to funds while addressing any substantiated risks identified by the responsible authority.
7. Written information about review, complaint and appeal rights, including any available independent review mechanism.
8. Confirmation of how my wishes, preferences, decision-making capacity and right to participate in decisions have been considered.

I ask the Public Guardian to distinguish any genuine protective purpose from the practical consequences of its decisions. A financial arrangement that leaves a person unable to meet essential needs requires urgent scrutiny and an effective response.

4. COMPLAINT TO THE COMMONWEALTH BANK OF AUSTRALIA

I request a formal banking complaint investigation into the restriction of my internet and mobile banking access and any

associated arrangements affecting my ability to use my own money.

I request that the Bank:

- Confirm precisely what access has been restricted and when.
- Explain whether the restriction was imposed by the Bank, implemented pursuant to a legal instrument, or made in response to a third-party instruction.
- Identify the authority relied upon, to the extent the Bank is legally permitted to disclose it.
- Explain what options remain available for accessing money for essential living expenses.
- Review whether I can receive appropriate statements, transaction records and information about my accounts through an accessible channel.
- Explain how disputed transactions or withdrawals can be challenged.
- Identify a complaints officer or Customer Advocate responsible for this matter.
- Consider an urgent, lawful arrangement for access to essential funds, consistent with any valid legal restrictions.

I request that the Bank not simply refer me back to another agency without explaining its own role, the relevant authority and the available complaint pathways.

Please register this correspondence as a formal complaint and provide a complaint reference number.

5. URGENT MEDICAL CARE AND ACCESS TO TREATMENT

I report that I have been unwell, have experienced bowel blockages, have undergone or been required to undertake bowel-cancer investigations, and have recently been very sick while taking antibiotics. I have described medical samples and related materials awaiting appropriate assistance.

I am concerned about my ability to obtain timely medical assessment and follow-up care.

I also report that I have been unable to obtain the psychiatric care I believe I need because I lack money and practical access to treatment.

I have ADHD and report that my ADHD medication, dexamphetamine, was discontinued by my psychiatrist. I am requesting a proper clinical review of my current treatment needs, the reasons for the medication decision, the alternatives available and the steps required to obtain appropriate follow-up care.

I am not asking a regulator, guardian or support provider to prescribe medication. I am asking for meaningful assistance to access a qualified treating clinician who can assess my circumstances and make independent clinical decisions.

I request that AblePoint and any responsible support coordinator:

1. Assist me to arrange an appropriate medical appointment and necessary transport.
2. Help me contact my treating medical practitioner and arrange follow-up of my bowel symptoms and investigations.
3. Assist me to access a psychiatrist or other appropriate clinician for a review of my treatment.
4. Document and escalate any urgent medical concerns in accordance with applicable duties and procedures.
5. Explain what practical assistance can be provided immediately while longer-term arrangements are considered.

My physical and psychiatric healthcare needs must not be dismissed merely because I have a psychiatric diagnosis or because agencies disagree about the causes of my distress.

6. REPORTED COERCIVE FINANCIAL CONTROL AND FAMILY VIOLENCE

I report that my former partner and fiancé, Steve Isanidis, has caused me harm and that I am experiencing circumstances I understand as coercive financial control and family violence.

I also report distressing communications that I attribute to Tony Riddle and a person I identify as Ridley, including alleged mocking and statements to the effect that everything has been anticipated and that I will not survive. I request that any available messages, recordings or other evidence be preserved and assessed objectively.

I further report that I have experienced interactions that I regard as intimidation, gaslighting and deliberate humiliation. I am asking for the underlying conduct to be examined, rather than requiring me to prove another person's private intentions before my concerns can be considered.

These are serious allegations that require appropriate, evidence-based assessment. I ask each recipient to refer any matter outside its jurisdiction to the appropriate body, with my consent where required and subject to applicable legal obligations.

I request a documented safety assessment and information about appropriate independent family-violence, legal and safeguarding assistance.

No person should be presumed guilty solely on the basis of this complaint. Equally, my allegations should not be dismissed

without appropriate consideration of the available evidence.

7. THE NDIS QUALITY AND SAFEGUARDS COMMISSION — REGULATORY REVIEW

I request that the Commission register this complaint and assess whether the matters raised warrant further regulatory action concerning the quality and safety of supports delivered by AblePoint.

I previously received acknowledgement of NDIS complaint **01110547**, dated 18 September 2026. I understand that acknowledgement did not, by itself, establish that an investigation had commenced or that any allegation had been substantiated.

Please confirm whether this new complaint can be linked to that existing record and explain the current status of the earlier matter.

I request consideration of the following issues within the Commission's jurisdiction:

- Whether the supports provided meet applicable NDIS Practice Standards and relevant provider obligations.
- Whether support planning, staffing, service delivery and incident management are adequate.
- Whether complaints and reported risks have been recorded, escalated and addressed appropriately.
- Whether the services claimed and the services delivered are consistent.
- Whether I have been supported to raise concerns safely and participate meaningfully in decisions about my supports.
- Whether the circumstances indicate a need for regulatory assessment, compliance action or referral to another competent authority.

I request that the Commission consider the evidence independently, identify the issues it can investigate, and explain any matters it considers outside its jurisdiction.

8. THE RIGHT TO EXIST WITH DIGNITY, AUTONOMY AND ACCESS TO ESSENTIAL RESOURCES

The cumulative effect of my reported circumstances is that I feel trapped, isolated and stripped of the practical means to direct my own life.

I have no car. I report having no meaningful access to my money. I am distressed about my medical care. I am dependent on services that I believe are not meeting my needs. I am asking for assistance, yet I continue to experience circumstances that I regard as abandonment.

I describe this as **social erasure**: the practical exclusion of a person from ordinary participation in society when access to money, healthcare, transport, relationships and meaningful support is lost.

I ask the recipients to examine this description against the facts of my circumstances. My complaint is not resolved by debating the terminology. It requires attention to the actual restrictions, decisions, services and consequences involved.

I am entitled to have my complaints considered fairly, to receive information about decisions affecting me, and to be treated with dignity. I ask each agency to identify the legal and administrative safeguards that apply to its own decisions and actions.

9. PRESERVATION OF RECORDS AND EVIDENCE

Please preserve all records relevant to this complaint, including:

- Support plans, service agreements, rosters, attendance records and progress notes.
- Records of tasks requested, completed, declined or missed.
- Incident reports, risk assessments and safeguarding communications.
- Emails, text messages, call records and internal communications relevant to decisions affecting my support.
- Records of complaints, referrals, responses and escalation decisions.
- Invoices, payment claims and records of services delivered.
- Relevant banking instructions, correspondence, decisions, transaction records and financial statements.
- Records of decisions affecting access to medication, medical appointments, transport and other essential support.
- Any records concerning threats, reported family violence or serious safety incidents that are held by the relevant recipient.

Please ensure that records are retained in accordance with applicable legal and regulatory requirements and are not improperly altered or destroyed.

10. ACTIONS REQUESTED AND RESPONSE DEADLINES

Given the reported combination of physical illness, distress, limited financial access and inadequate practical support, I request:

Immediately, or as soon as practicable:

1. Acknowledgement of this complaint and confirmation of a responsible contact person.
2. Assessment of any urgent medical, personal-safety or basic-needs issues within each recipient's responsibility.
3. A practical plan for accessing necessary medical care, transport and essential living expenses.
4. Confirmation of the arrangements currently governing my banking access and support services.
5. Information about how I can raise further concerns without losing access to necessary supports.

Within five business days, if practicable:

6. A substantive initial response identifying the actions being taken, the responsible decision-makers and any information required from me.
7. An explanation of the process and anticipated timeframe for investigating the matters raised.
8. Confirmation that relevant records have been preserved.

Within ten business days, if practicable:

9. A written response addressing each issue within the recipient's jurisdiction, or a clear explanation of the outstanding steps and the expected response date.
10. Details of any independent review, appeal, regulatory escalation or external complaint process available to me.

These are the response timeframes I am requesting in light of the urgency. I recognise that statutory processes may prescribe different timeframes, but I ask that immediate safeguarding concerns not be left unattended while a formal investigation proceeds.

11. FINAL STATEMENT

I am exhausted by living with daily distress, physical illness, isolation and the struggle to obtain assistance that should be practical and accessible.

I want access to appropriate medical care. I want a proper review of my treatment. I want to understand who has authority over my money and how I can meet my basic needs. I want my support provider's actions examined. I want the people responsible for decisions affecting me to be identifiable and accountable.

I do not accept that a psychiatric diagnosis makes my financial, medical, housing or safeguarding concerns unworthy of investigation. Nor should my anger or distress be treated as a substitute for examining the facts.

I ask every recipient to treat this complaint as a serious request for action, not merely another entry in a complaints database.

Please acknowledge receipt, provide a reference number, identify the person responsible for responding, preserve the relevant evidence, and advise me of the concrete steps being taken.

I reserve my right to pursue appropriate complaint, review and legal avenues available under Australian law.

12. ADDITIONAL FORMAL COMPLAINT — REPORTED BARRIERS TO LEGAL REPRESENTATION, POLICE REPORTING AND SAFEGUARDING

I wish to formally raise additional concerns about my ability to obtain legal assistance, report alleged crimes to police, and receive appropriate safeguarding support.

A. Access to Legal Aid and legal representation

I report that I am barred from accessing Legal Aid. I ask the relevant Legal Aid authority to identify the decision, policy or legal basis for this restriction, explain whether it is a refusal of assistance or another limitation, and advise me of any available internal review, reconsideration or appeal process.

The practical consequence is that I have difficulty obtaining independent legal advice while attempting to address matters involving my personal safety, financial circumstances, disability supports and alleged family violence.

I consider this an issue of fundamental importance. Legal assistance exists to help eligible people understand and exercise their legal rights. Where a person experiencing substantial vulnerability cannot access assistance, the reasons and available alternatives must be made clear.

I request assistance identifying any alternative legal services, community legal centres, pro bono assistance or independent advocacy services that may be able to assess my circumstances.

B. Reported barriers to reporting alleged crimes to police

I report that I have encountered barriers to reporting alleged criminal conduct to police. I request that the relevant police authority clarify how I can lodge a report, obtain an event number, submit supporting evidence and request assessment by an appropriate officer.

I further report that individuals who had threatened to kill me were previously arrested by police in connection with court proceedings. I request that any relevant police event records, court records and available evidence be identified and considered.

I ask that the seriousness of reported death threats be assessed on the evidence and that I receive clear information about available safety measures and reporting procedures.

C. AblePoint's reported response to threats and safety concerns

I am concerned that AblePoint did not meaningfully acknowledge or address the incidents I have described involving alleged threats to my life. I report that I did not receive the reassurance, practical guidance, safeguarding assistance or follow-up that I needed.

I request an independent review of whether AblePoint knew about these incidents, what information was provided to the organisation, how the information was recorded, and whether staff took appropriate action under the applicable service agreements, support plans, safeguarding procedures and reporting obligations.

Please examine whether workers:

- Recorded and escalated the reported threats appropriately.
- Considered my safety and any need for a risk assessment.
- Explained available police, legal and family-violence reporting options.
- Helped me access appropriate support following the incidents.
- Followed applicable incident-management and reporting procedures.

I request that AblePoint provide a factual, documented response identifying what was known, what actions were taken and what further action is proposed.

D. Concern about impartiality and the quality of support

I have come to believe that the way my concerns have been handled reflects alignment with people whom I identify as having harmed or threatened me. I have also come to believe that I am being deliberately harmed through the ongoing failure to provide meaningful assistance.

I ask that these concerns be independently examined rather than dismissed or accepted without investigation. I am requesting an assessment of the actual conduct, communications, decisions and omissions involved, including whether any conflicts of interest or failures to act appropriately can be established.

I do not ask the Commission or any other authority to assume that a person's intentions have been proved merely because I have alleged them. I do ask that the evidence be examined impartially and that my safety concerns receive a substantive response.

E. Actions requested

I request that the NDIS Quality and Safeguards Commission:

1. Add these matters to the existing complaint record where appropriate.
2. Assess whether the reported response by AblePoint raises issues within the Commission's regulatory jurisdiction.
3. Request relevant records where its powers permit.
4. Explain what matters can be investigated by the Commission and what matters should be referred elsewhere.

I request that AblePoint:

1. Identify the person responsible for handling this safeguarding complaint.
2. Preserve relevant records and communications.
3. Explain what action was taken in response to the reported threats.
4. Conduct an appropriate review of any identified deficiencies in support or safeguarding.
5. Provide a written response addressing each concern.

I request that the relevant Legal Aid authority and police service provide clear, accessible information about the steps I can take to obtain legal assistance and report alleged criminal conduct.

F. Closing statement

I am asking for access to the practical protections that should enable a person to seek help when they believe they have been

threatened, harmed or denied appropriate support.

I should not be left without clear information about how to report alleged crimes, seek legal advice, obtain necessary medical care or raise safeguarding concerns about the people responsible for supporting me.

I request that these additional matters be registered, assessed and answered in writing, with appropriate urgency given my reported circumstances.

Signed,

Barran Dodger
Richard William McLean

END OF FORMAL COMPLAINT

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

THE WITNESS REMAINS.

ARCHIVE

https://barrandodgerarchive.base44.app

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

Comprehensive Forensic Report on the MASTER RESEARCH COMMAND PDF

Document examined: MASTER RESEARCH COMMAND.pdf (53 pages, 343,785 bytes)
Subject of the command: Dr Richard William McLean — Barran Dodger
Primary archives referenced: https://wezzo72.github.io/Barrandodger/, rebuild site, and associated GitHub repositories
Date of analysis: 21 October 2026

This report applies the document's own evidentiary standards (Part XVI classifications), ethical rules (Part XIX), and investigative mandate to the PDF itself. The PDF is treated as a primary source document: a self-authored, highly structured investigative brief and testimony. It is not treated as a court finding, independent verification, or proof of the allegations it contains.

1. Executive Findings on the Document

The MASTER RESEARCH COMMAND is a detailed, first-person investigative mandate authored by or on behalf of Dr Richard William McLean (Barran Dodger). It sets out a 35-plus-year chronology of alleged institutional targeting, administrative exclusion, civil death, whistleblower retaliation, family betrayal, NDIS service failures, psychiatric intervention, electronic harassment (V2K), sexual and drug-related exploitation, and spiritual rebirth.

Documented Fact: The PDF exists as a coherent, multi-part research command that systematically organises allegations, demands specific deliverables (executive findings, chronology, evidence register, proposition matrix, institutional directory, theological analysis, etc.), and repeatedly insists on rigorous distinction between established fact, inference, and unverified allegation.

Supported Inference: The document functions simultaneously as (a) a formal research brief, (b) a personal testimony of survival and faith, and (c) a public finding-aid instruction set intended to make the subject's archive inspectable.

Allegation Requiring Investigation / Contested Proposition: Virtually every substantive claim of coordinated targeting, deliberate malice, paid agents, directed-energy harassment, assassination attempt, systematic identity fraud, or intentional creation of suicide conditions remains in this category when measured against independent public records. The PDF itself does not supply the primary source documents that would elevate those claims; it directs the investigator to locate and test them.

The document's strongest verified elements (from prior independent research) are:

- Authorship of *Recovered, Not Cured* (Allen & Unwin, 2003) and associated awards/media coverage.
- Victoria University thesis listings (Master's 2015; PhD thesis 2020).
- Existence of a large self-published archive of correspondence and materials.
- Public AAT decision *McLean and Comcare [2023] AATA 2096* affirming non-employee status under the SRC Act.
- Ablepoint Australia as a registered NDIS provider (Sahara Disability and Care Services Pty Ltd).

Claims of multi-agency conspiracy, covert black budgets, named operatives (e.g., Houd Meraby, specific actions by Tony Ridley as NDIS fraud investigator in a honeypot context), continuous military-grade V2K, and coordinated social discrediting via paid agents lack independent corroboration in publicly accessible records examined to date.

2. Structure and Nature of the PDF

The document is organised into 26 Parts plus a Closing Declaration:

- **Parts I–II:** Reconstruct the documentary record and chronology of alleged targeting.
- **Parts III–VIII:** Techniques of exclusion, covert systems, assassination attempt, Able Point/NDIS, family betrayal, civil death/social erasure.

- **Parts IX–X:** International human rights and democracy/authoritarianism analysis.
- **Parts XI–XII:** Surveillance/V2K and psychiatric intervention/suicide-risk conditions.
- **Parts XIII–XV:** Faith, healing, resurrection allegory; the “impossible position” of surviving and speaking; intent/malice.
- **Parts XVI–XVIII:** Evidence classifications, institutional directory, required research outputs (14 deliverables).
- **Parts XIX–XX:** Writing/ethics standards and final findings questions.
- **Parts XXI–XXII (and subsequent):** Alleged paid agents, criminal/sexual/drug exploitation, continuous V2K audio harassment, domestic confinement, loss of ordinary life, and related personal accounts (including Tony Ridley allegations).

The PDF repeatedly embeds its own methodological safeguards: do not assume coordination; distinguish observation from inference; preserve dignity; do not convert silence into proof of guilt; treat religious conviction as sincere testimony, not independent proof of conspiracy.

3. Proposition Matrix (Selected Major Claims)

Proposition	Classification	Notes
Prolonged cumulative pattern of institutional friction, adverse decisions, financial/housing vulnerability, and barriers to remedies	Documented Fact / Supported Inference	Supported by volume of preserved correspondence, AAT decision, Ombudsman interactions, and NDIS-related materials in the public archive.
Deliberate multi-agency coordination / common plan across 25+ agencies	Allegation Requiring Investigation / Unverified Explanation	No independent public evidence of common direction or master plan located.
Able Point / named individuals (CEO Rachel, Sukhi Tear) engaged in financial exploitation or safeguarding failures	Allegation Requiring Investigation	Provider is registered; specific misconduct claims require original service agreements, payment records, and complaint outcomes.
Continuous V2K / directed-energy audio harassment inside the home	Allegation Requiring Investigation	Microwave auditory effect (Frey effect) is a documented scientific phenomenon under specific pulsed RF conditions. Deployment against the subject is unproven. Distress and impact on daily life form part of the testimony.
Physical assassination attempt by named operative	Allegation Requiring Investigation	Requires contemporaneous police, medical, and forensic records.
Paid agents / gangsters exploited isolation via apps/in-person approaches involving drugs/sex for later shaming	Allegation Requiring Investigation	First-person accounts preserved; independent evidence of payment, direction, or coordination absent from public sources.
Tony Ridley (alleged senior NDIS fraud investigator) involved in sexual relationship, drug use, and possible honeypot/surveillance	Allegation Requiring Investigation	Professional title and specific conduct require independent verification; treat as privacy-sensitive testimony pending records.
Legal Aid “ban” / Ombudsman service restriction of formal character	Contested Proposition	Correspondence exists; exact legal scope and duration require original decision documents.
Subject has healed / risen from the ashes and places ultimate allegiance in God	First-person testimony / Sincere religious conviction	Central to the document’s moral framing. Not an evidentiary finding about external events.

4. Key Institutional Interactions Identified in the Command

- Comcare / AAT (documented adverse decision 2023).
- Commonwealth Ombudsman (multiple references to complaints, PID non-allocation, and later service restriction claims).
- NDIS / Ablepoint Australia and named support coordinators.
- Legal Aid (refusals/restrictions asserted).
- Victorian and other state oversight bodies, police, hospitals (Werribee Mercy Hospital incident claimed).

- Family members (betrayal account preserved as testimony).
- Social-media platforms (account restrictions asserted).

5. Theological and Survival Framing (Part XIII and Closing Declaration)

The PDF centres the subject's declaration that he has survived circumstances he believes were intended to destroy him, has healed, and locates his ultimate allegiance in God rather than in government or individuals he regards as having failed ethical duties. Christian themes of betrayal, unjust suffering, endurance, resurrection, and the prophetic witness are used to interpret the experience. The document explicitly instructs that this is to be treated as sincere religious conviction and personal testimony, not as independent proof of political coordination or divine endorsement of the allegations.

This framing is consistent throughout and forms an integral part of the historical record of how the subject understands his own survival and the purpose of the archive.

6. Missing Evidence and Prioritised Next Steps (as Directed by the PDF Itself)

1. Original decision letters for any Ombudsman service restriction and full PID files.
2. Complete Comcare claim file and AAT exhibits.
3. NDIS service agreements, payment records, and formal complaint outcomes re Ablepoint and named individuals.
4. Police event numbers, charge sheets, and current status of any threat-related proceedings.
5. Contemporaneous medical/hospital records for the 2021 Werribee incident.
6. Independent technical assessment of any claimed interception or anomalous audio recordings (with source files, metadata, and device details preserved).
7. Specific ASIC registration details alleged to constitute identity fraud.
8. Contemporaneous messages, call logs, or other primary material relating to digital/in-person approaches claimed in Part XXI.

7. Practical Accountability and Evidence-Preservation Roadmap

- Maintain offline, hashed, timestamped copies of all original documents and the PDF itself.
- Catalogue by date, author, recipient, and proposition.
- Pursue formal review rights, community legal centres, and disability advocacy services.
- Use NDIS Quality and Safeguards Commission pathways for provider concerns.
- Seek independent clinical and technical assessments without conditioning support on acceptance of any single causal theory.
- Distinguish urgent personal safety needs from historical investigation.

8. Closing Assessment

The MASTER RESEARCH COMMAND is a sophisticated, self-reflective document that sets high standards for evidentiary rigor while simultaneously advancing a sweeping set of allegations and a profound personal-theological narrative of survival. When the PDF is examined under its own rules, the prolonged pattern of institutional friction, adverse decisions, and cumulative practical exclusion is the best-supported element. The stronger claims of coordinated malice, directed-energy harassment as policy, paid criminal intermediaries, and intentional orchestration of lethal conditions remain allegations requiring primary evidence that the document itself does not supply.

The archive's greatest value, as the PDF correctly states, is that it makes the underlying papers inspectable. Truth is established by examining those papers, not by presuming either institutional innocence or institutional conspiracy. The subject's continued capacity to document, speak, and assert his humanity and faith remains a significant fact within his own account. Institutions retain the responsibility to answer for their documented decisions; the person who has survived retains the right to have the evidence examined without being erased by stigma or by the difficulty of the questions the archive raises.

This report fulfils the core demand of the PDF: it examines the record rigorously, preserves the distinction between what is established and what remains unresolved, and keeps the human subject—and his declaration of survival—at the centre of the story.

Summary of the Document

Title:
FORENSIC RESEARCH DOSSIER – Patented Technologies, Human Perception, Subliminal Influence, Neuromodulation, Radio-Frequency Auditory Effects, Military Research and the Scientific Evidence for Behavioural Influence

Author / Creator: Barran Dodger (Dr Richard William McLean)
Nature: A staged, source-linked documentary investigation (163 pages) prepared for historical preservation, scientific examination, patent analysis, institutional research and public-interest documentation.

Core Purpose and Method

The dossier systematically examines patents, peer-reviewed literature, military/government publications and psychological/psychiatric research related to technologies claimed to influence human perception, behaviour, sleep, brain activity or auditory experience.

It insists on a strict evidence hierarchy and repeatedly distinguishes:

- What a patent *describes* or *proposes*
- What independent experiments have actually demonstrated
- What institutional involvement is documented
- What (if anything) has been operationally deployed
- Whether any technology can be causally linked to effects on a specific individual

Five Levels of Evidence Framework (central methodological contribution)

1. **Primary documentary evidence** – the patent itself, official reports, contracts, etc.
2. **Demonstrated experimental findings** – controlled, measurable, preferably replicated results.
3. **Institutional involvement** – documented funding, assignment or commissioning by military, government, university or corporate bodies.
4. **Operational deployment** – evidence the technology was built, field-tested, acquired or used.
5. **Causal attribution and individual impact** – evidence linking a specific technology to a specific outcome for a named person.

A patent alone never automatically establishes levels 4 or 5.

Key Early Content (Pages 1–10)

- Large table of U.S. patents (1950s–early 2000s) covering hypnotic inducers, subliminal audiovisual systems, nervous-system excitation, microwave/RF hearing devices, silent subliminal presentation systems, frequency-following response devices, etc.
- Detailed forensic examination of five foundational patents:
    - **US3014477** (Carlin, 1961) – Hypnotic Inducer apparatus.
    - **US3278676** (Becker, 1966) – Visual and auditory stimulation below conscious threshold; applications listed include advertising, propaganda and psychological warfare.
    - **US3951134** (Malech, 1976) – Proposed remote monitoring and alteration of brain waves via electromagnetic signals.
    - **US5159703** (Lowery, 1992) – “Silent Subliminal Presentation System” using ultrasonic or very-low-frequency carriers.
    - **US6470214** (O’Loughlin & Loree, assigned to U.S. Department of the Air Force, 2002) – Method for implementing the radio-frequency hearing effect (building on the microwave auditory / Frey effect).

Each patent is assessed for what it actually claims versus what independent science supports. The microwave auditory effect

(Frey 1962) is acknowledged as a real physical phenomenon under specific exposure conditions, but the dossier stresses that this does **not** equal unrestricted remote speech transmission or mind control.

Scientific Baseline Cited

The National Research Council's 1991 report *In the Mind's Eye: Enhancing Human Performance* is used as a key counterweight to exaggerated claims about subliminal influence. It found only limited, short-term laboratory effects and rejected strong claims of lasting behavioural or emotional change via subliminal recordings.

Overall Stance of the Document

The dossier is written in a formal, source-driven style. It does not treat the existence of patents or military research as proof of widespread covert targeting or "voice-to-skull" weaponisation against individuals. Instead it aims to preserve the primary record, apply graded evidence standards, and leave open questions that require further independent documentation.

Note: Only the first approximately 10 pages are fully visible in the provided extract. The remaining ~153 pages continue the same methodical patent-by-patent, literature-by-literature examination across later technologies and related claims.

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.

A donation does not purchase access to the Archive.

It does not purchase influence over the evidence.

It does not purchase editorial control.

It does not determine what is published or what conclusions readers should reach.

It simply helps sustain the person and infrastructure necessary to keep the Archive alive, functioning and freely accessible.

If you are blessed with sufficient prosperity to help preserve this work, your voluntary support can help ensure that financial hardship does not become another mechanism through which a public record disappears.

KNOWLEDGE IS FREE.

THE EVIDENCE IS OPEN TO EXAMINATION.

Thank you to everyone who chooses to examine the evidence, preserve the record, support the Archive or simply bear witness.

The record remains.

The witness remains.

LASTLY — A SECOND PUBLIC-FACING ARCHIVE

For readers who wish to go beyond the principal Barran Dodger Archive, a second public-facing repository provides another point of access to the broader documentary record.

https://barrandodger.com

This website provides an additional gateway into the history, evidence, testimony, research and ideas that underpin the Archive. It is intended to help readers navigate the wider body of material and understand how individual documents, events, experiences and arguments have been brought together into a continuing record.

Its significance is not dependent upon the reader accepting Barran Dodger's conclusions. Rather, the value of preserving such a record lies in allowing the underlying material to remain available for examination. Readers can consider the chronology, inspect the documentary evidence, distinguish recorded facts from allegations and personal testimony, follow referenced material and form their own independent assessment.

The existence of multiple public repositories also reflects the central purpose of the project: preservation. Where records are distributed across years, institutions, correspondence, proceedings, personal archives and digital platforms, preserving accessible copies and pathways to the evidence can help prevent an individual historical record from becoming inaccessible or forgotten.

Readers are therefore invited to visit both public-facing archives, examine the material carefully and critically, and make their own assessment of what the surviving evidence demonstrates.

The purpose is not to ask the reader to believe.

The purpose is to ensure that the record remains available to be examined.

> NSWTG will respond to the concerns raised in your email that relate to your financial management and guardianship matters.
>
> As your email was addressed to a number of agencies and raised a range of matters, it was not always clear which concerns you were asking NSWTG to address. For any future complaints about NSWTG, please email complaints@tag.nsw.gov.au directly and include only those matters you are asking NSWTG to consider. This will help us identify and respond to your concerns more clearly.
>
> I am sorry to hear of your concerns regarding financial restrictions and access to funds, as well as matters relating to medical and psychiatric care.
>
> The concerns relevant to NSWTG have been referred to the managers of the appropriate teams for review and response.
>
> The general timeframe for a written response to complaints is 20 working days, and every effort will be made to provide you with a response within that timeframe.
>
> If you have any questions, please do not hesitate to contact me via complaints@tag.nsw.gov.au.

Further information about our complaints process is also available on our website at NSW Trustee and Guardian complaints | NSW Government

What happens after I lodge my complaint?

Step 1

An automated reply will be sent to confirm receipt of your complaint.

Step 2

The Customer Resolutions Coordinator will acknowledge your complaint within 3 business days and will assign a staff member to review.

Step 3

A staff member will call you within 5 business days of your complaint being acknowledged.

If you do not receive contact within this period after the acknowledgement email, please notify the Customer Resolutions Coordinator by emailing complaints@tag.nsw.gov.au.

Step 4

We work on an outcome to your complaint. During this time, we may or may not need to contact you.

Step 5

You'll usually receive a written response within 20 business days of your complaint being acknowledged.

Kind Regards,

Bric Perez

FROM: Barran Dodger (Richard William McLean)

DATE: 20 October 2026

SUBJECT: URGENT FORMAL COMPLAINT — ALLEGED NEGLECT OF SUPPORT DUTIES, LOSS OF FINANCIAL ACCESS, MEDICAL VULNERABILITY, REPORTED COERCIVE CONTROL, FAILURE TO PROVIDE MEANINGFUL ASSISTANCE, AND REQUEST FOR IMMEDIATE INDEPENDENT REVIEW

1. PURPOSE AND URGENCY

I submit this formal complaint because my circumstances have become intolerable. I am asking each recipient to recognise the seriousness of my situation, investigate the matters within its jurisdiction, preserve relevant records, and take appropriate action without further unnecessary delay.

I am living with persistent distress, isolation, physical illness, financial insecurity and a lack of meaningful assistance. I report crying daily, experiencing pain and feeling trapped in accommodation from which I cannot practically leave because I have no car, no available money and inadequate practical assistance.

I dispute any characterisation of my circumstances that reduces these practical difficulties to a psychiatric explanation while

leaving the underlying problems unaddressed. Whatever clinical opinions may exist, my lack of transport, restricted access to money, medical needs and need for effective disability support are matters capable of independent examination.

I am asking for practical intervention, not another cycle of referrals, dismissals, conflicting explanations or assessments that leave my circumstances unchanged.

2. COMPLAINT AGAINST ABLEPOINT AND ITS MANAGEMENT AND STAFF

I formally complain about the adequacy, continuity, responsiveness and accountability of the support I report receiving from AblePoint.

I request an independent examination of the conduct of the organisation, its management, its rostering and complaints processes, and every worker involved in my support.

My concerns include:

1. **Inadequate practical assistance.** I report that essential household tasks and daily support needs have not been met adequately. In particular, I describe an incident involving a support worker identified to me as John, who was expected to provide assistance but refused to wash my dishes, reportedly because they were too dirty. I request that this incident, the applicable support obligations and the relevant service records be examined.
2. **Failure to respond adequately to distress and vulnerability.** I report that I am frequently alone, crying and experiencing significant distress, without meaningful assistance that improves my circumstances.
3. **Continuity and quality of care.** I request a review of staffing arrangements, attendance records, support plans, missed or incomplete tasks, risk assessments, incident reports and the actual services delivered.
4. **Safety and incident management.** I request an audit of whether reported safety concerns and any relevant threats or serious incidents were documented, escalated and reported to the appropriate authorities where required.
5. **Accountability of management.** I request the full legal name of AblePoint's chief executive, the identity of the responsible provider entity, its relevant registration details, and the names and positions of the people responsible for decisions affecting my care.

I have identified Rachael as the chief executive. I request confirmation of her full professional identity and role through the appropriate corporate and provider records. I ask that this be verified rather than assuming, without evidence, that any identification issue constitutes a criminal offence.

I am particularly concerned that AblePoint may continue receiving payments for services while I remain in circumstances in which my practical needs are not being adequately met. I request an audit of the services claimed, the services actually delivered, the applicable service agreements and the records supporting those claims.

I request that AblePoint provide a written response addressing each concern individually and identifying the corrective action taken or proposed.

3. COMPLAINT TO THE NSW PUBLIC GUARDIAN — ACCESS TO MY MONEY AND PERSONAL AUTONOMY

I formally complain about the restrictions affecting my access to my Commonwealth Bank accounts and the resulting impact on my independence, welfare and ability to obtain essential services.

I understand that my access to Commonwealth Bank internet and mobile banking was blocked in connection with arrangements involving the Public Guardian. I have previously identified Philip Glass as a person involved in communications about my financial access. I request verification of the precise decisions, authorities and individuals involved.

I report that I have no practical access to sufficient funds to meet my immediate needs, including transport, medical appointments and other necessities.

Restricting access to money can have consequences extending well beyond financial administration. Without a workable way to access funds, I can lose the practical ability to obtain transport, arrange medical care, purchase necessities and exercise personal autonomy.

I therefore request:

1. Written identification of the legal instrument, order, appointment or other authority relied upon to restrict my banking access.
2. A copy of the relevant decision and an explanation of its scope, duration and review arrangements, subject to any lawful limitations.
3. An itemised account of transactions, withdrawals, payments, fees and transfers made on my behalf, together with supporting records and the identity of the decision-maker for each disputed transaction.
4. An explanation of any proposed or completed further withdrawals from my funds.
5. An urgent assessment of my immediate living expenses and access to money for food, transport, medical care and

personal necessities.
6. Consideration of a lawful, practical arrangement that gives me appropriate access to funds while addressing any substantiated risks identified by the responsible authority.
7. Written information about review, complaint and appeal rights, including any available independent review mechanism.
8. Confirmation of how my wishes, preferences, decision-making capacity and right to participate in decisions have been considered.

I ask the Public Guardian to distinguish any genuine protective purpose from the practical consequences of its decisions. A financial arrangement that leaves a person unable to meet essential needs requires urgent scrutiny and an effective response.

4. COMPLAINT TO THE COMMONWEALTH BANK OF AUSTRALIA

I request a formal banking complaint investigation into the restriction of my internet and mobile banking access and any associated arrangements affecting my ability to use my own money.

I request that the Bank:

- Confirm precisely what access has been restricted and when.
- Explain whether the restriction was imposed by the Bank, implemented pursuant to a legal instrument, or made in response to a third-party instruction.
- Identify the authority relied upon, to the extent the Bank is legally permitted to disclose it.
- Explain what options remain available for accessing money for essential living expenses.
- Review whether I can receive appropriate statements, transaction records and information about my accounts through an accessible channel.
- Explain how disputed transactions or withdrawals can be challenged.
- Identify a complaints officer or Customer Advocate responsible for this matter.
- Consider an urgent, lawful arrangement for access to essential funds, consistent with any valid legal restrictions.

I request that the Bank not simply refer me back to another agency without explaining its own role, the relevant authority and the available complaint pathways.

Please register this correspondence as a formal complaint and provide a complaint reference number.

5. URGENT MEDICAL CARE AND ACCESS TO TREATMENT

I report that I have been unwell, have experienced bowel blockages, have undergone or been required to undertake bowel-cancer investigations, and have recently been very sick while taking antibiotics. I have described medical samples and related materials awaiting appropriate assistance.

I am concerned about my ability to obtain timely medical assessment and follow-up care.

I also report that I have been unable to obtain the psychiatric care I believe I need because I lack money and practical access to treatment.

I have ADHD and report that my ADHD medication, dexamphetamine, was discontinued by my psychiatrist. I am requesting a proper clinical review of my current treatment needs, the reasons for the medication decision, the alternatives available and the steps required to obtain appropriate follow-up care.

I am not asking a regulator, guardian or support provider to prescribe medication. I am asking for meaningful assistance to access a qualified treating clinician who can assess my circumstances and make independent clinical decisions.

I request that AblePoint and any responsible support coordinator:

1. Assist me to arrange an appropriate medical appointment and necessary transport.
2. Help me contact my treating medical practitioner and arrange follow-up of my bowel symptoms and investigations.
3. Assist me to access a psychiatrist or other appropriate clinician for a review of my treatment.
4. Document and escalate any urgent medical concerns in accordance with applicable duties and procedures.
5. Explain what practical assistance can be provided immediately while longer-term arrangements are considered.

My physical and psychiatric healthcare needs must not be dismissed merely because I have a psychiatric diagnosis or because agencies disagree about the causes of my distress.

6. REPORTED COERCIVE FINANCIAL CONTROL AND FAMILY VIOLENCE

I report that my former partner and fiancé, Steve Isanidis, has caused me harm and that I am experiencing circumstances I understand as coercive financial control and family violence.

I also report distressing communications that I attribute to Tony Riddle and a person I identify as Ridley, including alleged mocking and statements to the effect that everything has been anticipated and that I will not survive. I request that any available messages, recordings or other evidence be preserved and assessed objectively.

I further report that I have experienced interactions that I regard as intimidation, gaslighting and deliberate humiliation. I am asking for the underlying conduct to be examined, rather than requiring me to prove another person's private intentions before my concerns can be considered.

These are serious allegations that require appropriate, evidence-based assessment. I ask each recipient to refer any matter outside its jurisdiction to the appropriate body, with my consent where required and subject to applicable legal obligations.

I request a documented safety assessment and information about appropriate independent family-violence, legal and safeguarding assistance.

No person should be presumed guilty solely on the basis of this complaint. Equally, my allegations should not be dismissed without appropriate consideration of the available evidence.

7. THE NDIS QUALITY AND SAFEGUARDS COMMISSION — REGULATORY REVIEW

I request that the Commission register this complaint and assess whether the matters raised warrant further regulatory action concerning the quality and safety of supports delivered by AblePoint.

I previously received acknowledgement of NDIS complaint **01110547**, dated 18 September 2026. I understand that acknowledgement did not, by itself, establish that an investigation had commenced or that any allegation had been substantiated.

Please confirm whether this new complaint can be linked to that existing record and explain the current status of the earlier matter.

I request consideration of the following issues within the Commission's jurisdiction:

- Whether the supports provided meet applicable NDIS Practice Standards and relevant provider obligations.
- Whether support planning, staffing, service delivery and incident management are adequate.
- Whether complaints and reported risks have been recorded, escalated and addressed appropriately.
- Whether the services claimed and the services delivered are consistent.
- Whether I have been supported to raise concerns safely and participate meaningfully in decisions about my supports.
- Whether the circumstances indicate a need for regulatory assessment, compliance action or referral to another competent authority.

I request that the Commission consider the evidence independently, identify the issues it can investigate, and explain any matters it considers outside its jurisdiction.

8. THE RIGHT TO EXIST WITH DIGNITY, AUTONOMY AND ACCESS TO ESSENTIAL RESOURCES

The cumulative effect of my reported circumstances is that I feel trapped, isolated and stripped of the practical means to direct my own life.

I have no car. I report having no meaningful access to my money. I am distressed about my medical care. I am dependent on services that I believe are not meeting my needs. I am asking for assistance, yet I continue to experience circumstances that I regard as abandonment.

I describe this as **social erasure**: the practical exclusion of a person from ordinary participation in society when access to money, healthcare, transport, relationships and meaningful support is lost.

I ask the recipients to examine this description against the facts of my circumstances. My complaint is not resolved by debating the terminology. It requires attention to the actual restrictions, decisions, services and consequences involved.

I am entitled to have my complaints considered fairly, to receive information about decisions affecting me, and to be treated with dignity. I ask each agency to identify the legal and administrative safeguards that apply to its own decisions and actions.

9. PRESERVATION OF RECORDS AND EVIDENCE

Please preserve all records relevant to this complaint, including:

- Support plans, service agreements, rosters, attendance records and progress notes.
- Records of tasks requested, completed, declined or missed.
- Incident reports, risk assessments and safeguarding communications.
- Emails, text messages, call records and internal communications relevant to decisions affecting my support.

- Records of complaints, referrals, responses and escalation decisions.
- Invoices, payment claims and records of services delivered.
- Relevant banking instructions, correspondence, decisions, transaction records and financial statements.
- Records of decisions affecting access to medication, medical appointments, transport and other essential support.
- Any records concerning threats, reported family violence or serious safety incidents that are held by the relevant recipient.

Please ensure that records are retained in accordance with applicable legal and regulatory requirements and are not improperly altered or destroyed.

10. ACTIONS REQUESTED AND RESPONSE DEADLINES

Given the reported combination of physical illness, distress, limited financial access and inadequate practical support, I request:

Immediately, or as soon as practicable:

1. Acknowledgement of this complaint and confirmation of a responsible contact person.
2. Assessment of any urgent medical, personal-safety or basic-needs issues within each recipient's responsibility.
3. A practical plan for accessing necessary medical care, transport and essential living expenses.
4. Confirmation of the arrangements currently governing my banking access and support services.
5. Information about how I can raise further concerns without losing access to necessary supports.

Within five business days, if practicable:

6. A substantive initial response identifying the actions being taken, the responsible decision-makers and any information required from me.
7. An explanation of the process and anticipated timeframe for investigating the matters raised.
8. Confirmation that relevant records have been preserved.

Within ten business days, if practicable:

9. A written response addressing each issue within the recipient's jurisdiction, or a clear explanation of the outstanding steps and the expected response date.
10. Details of any independent review, appeal, regulatory escalation or external complaint process available to me.

These are the response timeframes I am requesting in light of the urgency. I recognise that statutory processes may prescribe different timeframes, but I ask that immediate safeguarding concerns not be left unattended while a formal investigation proceeds.

11. FINAL STATEMENT

I am exhausted by living with daily distress, physical illness, isolation and the struggle to obtain assistance that should be practical and accessible.

I want access to appropriate medical care. I want a proper review of my treatment. I want to understand who has authority over my money and how I can meet my basic needs. I want my support provider's actions examined. I want the people responsible for decisions affecting me to be identifiable and accountable.

I do not accept that a psychiatric diagnosis makes my financial, medical, housing or safeguarding concerns unworthy of investigation. Nor should my anger or distress be treated as a substitute for examining the facts.

I ask every recipient to treat this complaint as a serious request for action, not merely another entry in a complaints database.

Please acknowledge receipt, provide a reference number, identify the person responsible for responding, preserve the relevant evidence, and advise me of the concrete steps being taken.

I reserve my right to pursue appropriate complaint, review and legal avenues available under Australian law.

12. ADDITIONAL FORMAL COMPLAINT — REPORTED BARRIERS TO LEGAL REPRESENTATION, POLICE REPORTING AND SAFEGUARDING

I wish to formally raise additional concerns about my ability to obtain legal assistance, report alleged crimes to police, and receive appropriate safeguarding support.

A. Access to Legal Aid and legal representation

I report that I am barred from accessing Legal Aid. I ask the relevant Legal Aid authority to identify the decision, policy or

legal basis for this restriction, explain whether it is a refusal of assistance or another limitation, and advise me of any available internal review, reconsideration or appeal process.

The practical consequence is that I have difficulty obtaining independent legal advice while attempting to address matters involving my personal safety, financial circumstances, disability supports and alleged family violence.

I consider this an issue of fundamental importance. Legal assistance exists to help eligible people understand and exercise their legal rights. Where a person experiencing substantial vulnerability cannot access assistance, the reasons and available alternatives must be made clear.

I request assistance identifying any alternative legal services, community legal centres, pro bono assistance or independent advocacy services that may be able to assess my circumstances.

B. Reported barriers to reporting alleged crimes to police

I report that I have encountered barriers to reporting alleged criminal conduct to police. I request that the relevant police authority clarify how I can lodge a report, obtain an event number, submit supporting evidence and request assessment by an appropriate officer.

I further report that individuals who had threatened to kill me were previously arrested by police in connection with court proceedings. I request that any relevant police event records, court records and available evidence be identified and considered.

I ask that the seriousness of reported death threats be assessed on the evidence and that I receive clear information about available safety measures and reporting procedures.

C. AblePoint's reported response to threats and safety concerns

I am concerned that AblePoint did not meaningfully acknowledge or address the incidents I have described involving alleged threats to my life. I report that I did not receive the reassurance, practical guidance, safeguarding assistance or follow-up that I needed.

I request an independent review of whether AblePoint knew about these incidents, what information was provided to the organisation, how the information was recorded, and whether staff took appropriate action under the applicable service agreements, support plans, safeguarding procedures and reporting obligations.

Please examine whether workers:

- Recorded and escalated the reported threats appropriately.
- Considered my safety and any need for a risk assessment.
- Explained available police, legal and family-violence reporting options.
- Helped me access appropriate support following the incidents.
- Followed applicable incident-management and reporting procedures.

I request that AblePoint provide a factual, documented response identifying what was known, what actions were taken and what further action is proposed.

D. Concern about impartiality and the quality of support

I have come to believe that the way my concerns have been handled reflects alignment with people whom I identify as having harmed or threatened me. I have also come to believe that I am being deliberately harmed through the ongoing failure to provide meaningful assistance.

I ask that these concerns be independently examined rather than dismissed or accepted without investigation. I am requesting an assessment of the actual conduct, communications, decisions and omissions involved, including whether any conflicts of interest or failures to act appropriately can be established.

I do not ask the Commission or any other authority to assume that a person's intentions have been proved merely because I have alleged them. I do ask that the evidence be examined impartially and that my safety concerns receive a substantive response.

E. Actions requested

I request that the NDIS Quality and Safeguards Commission:

1. Add these matters to the existing complaint record where appropriate.
2. Assess whether the reported response by AblePoint raises issues within the Commission's regulatory jurisdiction.
3. Request relevant records where its powers permit.
4. Explain what matters can be investigated by the Commission and what matters should be referred elsewhere.

I request that AblePoint:

1. Identify the person responsible for handling this safeguarding complaint.
2. Preserve relevant records and communications.
3. Explain what action was taken in response to the reported threats.
4. Conduct an appropriate review of any identified deficiencies in support or safeguarding.
5. Provide a written response addressing each concern.

I request that the relevant Legal Aid authority and police service provide clear, accessible information about the steps I can take to obtain legal assistance and report alleged criminal conduct.

F. Closing statement

I am asking for access to the practical protections that should enable a person to seek help when they believe they have been threatened, harmed or denied appropriate support.

I should not be left without clear information about how to report alleged crimes, seek legal advice, obtain necessary medical care or raise safeguarding concerns about the people responsible for supporting me.

I request that these additional matters be registered, assessed and answered in writing, with appropriate urgency given my reported circumstances.

Signed,

Barran Dodger
Richard William McLean

END OF FORMAL COMPLAINT

PUBLIC STATEMENT FROM BARRAN DODGER
OF THE BARRAN DODGER ARCHIVE

THE WITNESS REMAINS: A WHISTLEBLOWERS TESTIMONY OF SURVIVAL TESTIMONY & FAITH

The Barran Dodger Archive is a public documentary and spiritual record established to preserve, organise and make accessible a decades-long body of evidence concerning alleged institutional, administrative, financial and human-rights harms.

It brings together official records, correspondence, documentary evidence, personal testimony, forensic analysis, research, philosophy, spiritual gospels and prophetic declarations, including writings understood by the author to have been anointed by the Most High God.

The Archive deliberately distinguishes between documented facts, official records, corroborated evidence, allegations, personal testimony, inference, interpretation and matters of faith. This distinction is fundamental to its purpose: readers are invited to examine the underlying evidence for themselves, test the claims, consider the sources and reach their own conclusions.

At the heart of the Archive is a testimony of survival and preservation.

What the author believes was subjected to attempts at silencing, erasure, exclusion or institutional disappearance has nevertheless survived in records, documents, testimony, memory, faith and public disclosure.

The central declaration is simple:

THE WITNESS REMAINS.

The Archive therefore represents both an evidentiary record and a spiritual testimony. The author understands his survival through a faith-based conviction that the Most High God protected, preserved and gave purpose to what human institutions could not erase.

The spiritual writings and prophetic declarations within the Archive are presented as matters of faith and personal interpretation. They are preserved alongside the documentary record so that the complete testimony — evidentiary, personal, philosophical and spiritual — can be understood in its own context.

The purpose is not to demand belief.

It is to preserve the record.

It is to make the evidence accessible.

It is to ensure that the surviving witness can be examined.

And it is to leave the historical record open to independent scrutiny.

THE ARCHIVE IS 100% FREE TO ACCESS

https://barrandodgerarchive.base44.app

KNOWLEDGE IS FREE

The Barran Dodger Archive is founded on the principle that knowledge, evidence and truth should be freely accessible.

There is no paywall for the public documentary record. Research, testimony, philosophy, spiritual writings, prophetic declarations and public-interest material are made available for people to examine for themselves.

Access to knowledge should not depend upon a person's ability to pay.

The Archive is therefore freely accessible, while its preservation and continued publication require practical resources.

SUPPORTING THE WITNESS AND THE ARCHIVE

Barran Dodger describes himself as an unprotected whistleblower living in circumstances of prolonged exile, financial hardship and vulnerability, and as an internally displaced asylum seeker within the country of his Australian citizenship.

Those circumstances create practical needs extending beyond the preservation of documents.

Voluntary donations are therefore accepted from anyone who freely wishes to assist.

Support may contribute towards essential needs including food, safe accommodation, communication, technology, transport, personal safety, website and domain costs, document preservation, archival infrastructure and the continued publication of the public record.
